## **PROGRAM CHANGES TO ACCOMMODATE INFLUENZA A (H1N1) VACCINE FOR SWINE FLU CLAIMS**

To accommodate the new Influenza A (H1N1) vaccine for Swine Flu, i.e., Administration (Adm) code 90470 and Immunization (Imm) code 90663, MEDTRON has made a program change to file charges using these CPTs on their own separate claim.

The Medicare Adm code G9141 will continue to file with other charges on claim.

NOTE: Medicare Imm code G9142 is **not** required on Medicare claims.

Other Adm/Imm codes should be keyed and will continue to file on claim(s) per current protocol. Refer to **User Guide: Vaccines & Administration** and **Medicare Part B Covered Preventive Services**.

Timeshare clients ~ the above change was installed 10/19/09.

iSeries Clients ~ *if you will be administering H1N1 vaccines,  
please contact Software Support per below to schedule install.*

For LA Medicaid users, to request additional information on overall immunization billing protocol, contact Software Support to request **User Guide: LA Medicaid VFC Immunizations**
