

FOR IMMEDIATE RELEASE: July 21, 2011

**MEDTRON SOFTWARE INTELLIGENCE CORPORATION'S MEDEHR®
VERSION 1.0 RECEIVES ONC-ATCB 2011/2012 CERTIFICATION**

MEDTRON
MEDEHR
ELECTRONIC HEALTH RECORDS

July 15, 2011 – MEDTRON SOFTWARE INTELLIGENCE CORPORATION announced today that MEDEHR® Version 1.0, is 2011/2012 compliant and was certified as a Complete EHR on July 15, 2011, by the Certification Commission for Health Information Technology (CCHIT®), an ONC-ATCB, in accordance with the applicable ELIGIBLE PROVIDER certification criteria adopted by the Secretary of Health and Human Services. The 2011/2012 criteria support the Stage 1 meaningful use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).

<http://www.cchit.org/products/2011-2012/arrafinalruleeligibleprovider/3177>

"We believe this certification validates that we are committed to responding to the needs of our clients. The healthcare industry continues to demand more from healthcare providers with much less economic reward, thereby commanding efficiencies in their workflows. MEDTRON can assist healthcare providers in realizing these efficiencies via MEDEHR." – RT McDaniel, MEDTRON Software Intelligence Corporation, CEO

The ONC-ATCB 2011/2012 certification program tests and certifies that Complete EHRs meet all of the 2011/2012 criteria and EHR Modules meet one or more – but not all – of the criteria approved by the Secretary of Health and Human Services (HHS) for either eligible provider or hospital technology.

"CCHIT is pleased to be testing and certifying products so that companies are now able to offer these products to providers who wish to purchase and implement certified EHR technology and achieve meaningful use in time for the 2011-2012 incentives," said Karen M. Bell, M.D., M.S.S., Chair, CCHIT. MEDEHR® Version 1.0's certification number is CC-1112-485440-1. ONC-ATCB 2011/2012 certification conferred by CCHIT does not represent an endorsement of the certified EHR technology

by the U.S. Department of Health and Human Services nor does it guarantee the receipt of incentive payments.

The clinical quality measures to which MEDEHR® Version 1.0 has been certified include:

NQF 0421 Adult Weight Screening & Follow-Up (core/alternate core)

NQF 0013 Hypertension: Blood Pressure Measurement (core/alternate core)

NQF 0028 Tobacco Use Assessment and Cessation (core/alternate core)

NQF 0041 Influenza Immunization (core/alternate core)

NQF 0024 Weight Assessment and Counseling (core/alternate core)

NQF 0038 Childhood Immunization Status (core/alternate core)

NQF 0043 Pneumonia Vaccination Status

NQF 0047 Asthma Pharmacologic Therapy

NQF 0084 Heart Failure: Warfarin Therapy

About MEDTRON SOFTWARE INTELLIGENCE CORPORATION

MEDTRON was formed in 1983 to support and enhance the sister company MEDDATA Service Bureau, L.L.C., a medical billing service. MEDTRON's goal was to facilitate the demanding needs of providing exceptional healthcare by offering financial and clinical software and service solutions that are second to none. Over the past 30+ years, MEDTRON has provided a comprehensive practice management (MEDPM®) software application; in recent years has complimented the solution by adding electronic health records (MEDEHR®), in which both provide highly specialized billing and clinical workflow for all medical specialties. The critical difference between MEDTRON and other software companies is clearly reflected in our product. MEDTRON addresses the complex, ever-changing and evolving requirements that face today's medical practices. Instead of bringing computer expertise to medical practice management, we bring firsthand practice management and electronic health records experience to software design. No matter the challenge, MEDTRON is confident to be the right choice for your practice. For more information, please visit www.medtronsoftware.com or contact the MEDTRON Sales Team at sales@medtronsoftware.com or 877-893-2550.

About CCHIT

The Certification Commission for Health Information Technology (CCHIT®) is an independent, 501(c)3 nonprofit organization with the public mission of accelerating the adoption of robust, interoperable health information technology. The Commission has been certifying electronic health record technology since 2006 and is approved by the Office of the National Coordinator for Health Information Technology (ONC) of the U.S. Department of Health and Human Services (HHS) as an Authorized Testing and Certification Body (ONC-ATCB). More information on CCHIT, CCHIT

Certified® products and ONC-ATCB certified electronic health record technology is available at <http://cchit.org>.

About ONC-ATCB 2011/2012 Certification

The ONC-ATCB 2011/2012 certification program tests and certifies that EHR technology is capable of meeting the 2011/2012 criteria approved by the Secretary of Health and Human Services (HHS). The certifications include Complete EHRs, which meet all of the 2011/2012 criteria for either eligible provider or hospital technology and EHR Modules, which meet one or more – but not all – of the criteria. ONC-ATCB certification aligns with [Health Information Technology: Initial Set of Standards, Implementation Specifications, and Certification Criteria for Electronic Health Record Technology](#) published in the Federal Register in July 2010 and strictly adheres to the [test procedures](#) published by the National Institute of Standards and Technology (NIST) at the time of testing. ONC-ATCB 2011/2012 certification conferred by the Certification Commission for Health Information Technology (CCHIT®) does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services nor does it guarantee the receipt of incentive payments.
