## MEDICARE REMIT EASY PRINT (MREP) - VERSION 4.6 IS AVAILABLE!

The Centers for Medicare & Medicaid Services (CMS) developed Medicare Remit Easy Print (MREP) software as a tool providers can use to convert any carrier's 835 Electronic Remittance Advice (ERA) files to a familiar readable format and use as a printed Remittance Advice (RA) or Explanation of Benefits (EOB).

Providers who use the MREP software package can print paper documentation, i.e., a remit, that can be used to reconcile their MEDTRON (MSI) unprocessed batches to the ERA records/files; and create document(s)/EOBs which can be attached to secondary Coordination of Benefits (COB) payer claims.

NOTE: An MREP is only available for payment records received via ERA.

Refer to [User Guide: Medicare Easy Remit Print \(MREP\)](#) for further instructions.

The MREP software is available *free* through CMS and includes the updated Claim Adjustment Reason Codes (CARC)/ Remittance Advice Remark Codes (RARC) file. The newest version, Version 4.6 is now available for download at:
