

## 2014 SUPPORT FILE UPDATES FOR ICD-9 AND CPT CODES

It is that time of year again when revisions (updates/additions/deletions) are published to codes used for medical billing:

ICD-9 (International Classification of Diseases)

Per the Centers for Medicare and Medicaid Services (CMS), there are no new, revised or deleted ICD-9-CM diagnosis codes effective for October 1, 2013. ▽

CPT (Current Procedural Terminology) ~ published ~ September 15, effective January 1, 2014

There are 335 code changes that reflect the combined efforts of the health care community to capture and describe the latest scientific and technological advances in medical, surgical and diagnostic services.

[Pathology and Lab](#)

▽ The American Medical Association (AMA) continues to implement a [partial freeze](#) for both ICD-9 and ICD-10 code sets to help simplify the transition from ICD-9 to ICD-10 (Effective October 1, 2014). This is to reduce maintenance work and give everyone involved more time to work on ICD-10 implementation. Therefore, there have been no changes to the newly published ICD-9 codes.

**REMEMBER:** 2014 CPT updates/additions/deletions ~ not only must support files be updated via **MEDPM** but **charge tickets must be reviewed to confirm all linked diagnosis and/or transaction codes (key codes) using specific CPT codes are still accurate.**

**MEDDATA/Timeshare clients** are up to date and ready to proceed with ICD-9 for 2014, effective Oct. 2013. **iSeries clients** are up to date for ICD-9 provided prior year(s) updates have been completed.

**MEDDATA clients:** Setup and Support files will be updated automatically for CPT updates.

**\*\*Practice staff should review charge tickets for applicable updates.\*\***

**Timeshare/iSeries clients:** Contact MSI Software Support for CPT code updates and make internal revisions to your charge tickets.

**MEDEHR clients:** refer to 112513 News Blast: [MEDEHR Yearly Template Support Updates for ICD-9 and CPT Updates](#); available via [www.medtronsoftware.com](http://www.medtronsoftware.com).

Contact Software Support for assistance or any questions via:
